

Tracey Sheehan – Director Appointed Governor

I have been an active member of Kingsnorth Church, for over 20 years. During this time, I have contributed to the church community by developing children's worship, running holiday clubs, leading worship services, and serving as Assistant Church Warden.

Professionally, I have over two decades of experience in education, having taught Engineering and Science at both a local college and a specialist SEMH (Social, Emotional and Mental Health) school.

Both of my children attended Kingsnorth Primary School and went on to graduate from university. While at Kingsnorth, they were actively involved in extracurricular activities, including music and sport—experiences that played a key role in their development.

In November 2021, I was honoured to be appointed as a Director Appointed Governor. It is a privilege to support a school that has had such a lasting, positive impact on my own family and continues to shape the futures of so many young people.
