

Keith White - Vice- Chair of Governors – Director Appointed Governor

I became a Governor in October 2019, although I have a long association with Kingsnorth School which spans over 30 years. I am currently Vice-Chair of Governors, Chair of the Resources Committee and have governor responsibility for Health and Safety. Prior to becoming a governor, I supported the school in many ways, including the Year 4 and 6 Kingswood, Isle of Wight PGL and until the pandemic, the year 6 French residential trips. I enjoy being able to help other classes with their trips and activities as well.

I took early retirement after over 40 years in the rail industry and then set up my own rail consultancy, before finally retiring to “put my feet up”. Fortunately, I have been able to bring many of my work skills to my Governor role, particularly Management, Health and Safety and Finance. As the named Health & Safety Governor I work closely with the senior leadership team and site staff to ensure the school buildings and site are as safe as they possibly can be for everyone.

I’m fortunate to be able to get into school regularly to support the staff and children and especially to see the children thrive.
