Headteacher: Mr Iain Witts

Dear Parents/Carers

On **Wednesday 10th November** we will be celebrating '**World Science Day**'.

Each year group will be exploring a different aspect of Science to highlight the importance that science has on our everyday lives and to highlight the vast amount of jobs which children may not recognise as being a scientist. Here is the area of Science each class will be looking at:

Year R – Engineer

Year 1 – Meteorologist

Year 2 – Zoologist

Year 3 – Sports Scientist

Year 4 – Chemist

Year 5 – Engineer

Year 6 – Zoologist

For this day, we are inviting your child to come to school dressed up as a scientist. We are asking you to think outside the box. We have listed some examples below.

- Vet
- Nurse
- Doctor
- Astronaut
- Dentist

If you do not have anything to dress up or your child would not like to dress up, we are inviting you to make a badge which your child can wear during the day. This might say what scientist they are along with some pictures/drawings and keywords of what your scientist does.

We really hope your child will enjoy celebrating this day and the activities that have been planned by their class teachers.

Yours sincerely,

M Stonehouse 

Megan Stonehouse and Carly Cianter
