A message from Sarah Bone, Deputy Head

Another week has slipped quickly by and we head for our final week in January. Thank you for your continued support of the school. If there is anything that is worrying you, please do catch one of us on the gate in the morning or at the end of the day – we are always very happy to make time for you and to help. As restrictions ease, we are looking forward to launching a Parent Forum group so that we are able to work more intimately with you again in this respect. We will keep you updated on the timeframes for this.

Outdoor Learning sessions started this week and have been an incredible success with the children. Many thanks to all of our colleagues and to Mr Everett for the launch of these this week. We are all very excited about the potential and power of these sessions – I hope that your child has chatted to you about this; if not, do not worry, we are taking plenty of photos!

This week has been a fabulous experience of walking through time as I have popped into classrooms; from Ancient Greece, Ancient Egypt and the Fire of London to Ancient Rome. The children have had some wonderful immersive experiences – I am very grateful to our talented and creative teaching teams. I have also had my name “translated” into hieroglyphics – my thanks to Year 6! Some budding engineers from Year 4 shared an electrical circuit they had made at home, Year 2 have made bread and our youngest children have been learning about capacity, measuring water into different sized containers. Year 1 have also been scientists, melting different materials.

It has been a very busy week! I hope that as another chilly weekend approaches, that you have invaluable and happy family time together. We look forward to seeing you all next week.

Wellbeing

It's perfectly okay if the only exercise you get today is flipping the pages of a book or stirring your tea or smiling with friends. Wellbeing means your WHOLE body. Make sure your soul is getting as much exercise as your glutes.
