

Dear Parent/Guardian,

I am sending home logins for pupils to use on the 'Languagenut' website in order to help pupils achieve maximum success in Modern Languages. Access details are as follows:

1. Type in 'Languagenut' to find the site through Google (or go to [www.languagenut.com](http://www.languagenut.com) / download the free iPad app)
2. Click on 'Login', (top right or middle right)
3. Enter personal Login details attached

One of the aims of subscribing to an online course is to enable pupils to work on vocabulary, phrases, structures and exam revision at home or in homework club, in order to build competence and independence. As you will know, it is very hard to learn a language if you do not practise! I hope the children will enjoy playing the games on the site and that it will enable you to engage with your child's language learning experience.

For your child to use Languagenut, the app needs your child's name in order to be able to assign work, track results and to compete in a global league table! Languagenut only uses this information to provide the service and doesn't advertise, share or sell your child's personal information. You can read more about their strong privacy promises here: <https://www.languagenut.com/en-gb/terms/>

If it is possible, I suggest taking some time to explore the site with your child to help them get started. They will be able to revisit topics we have covered, but also take responsibility for their own learning and move ahead independently if they wish.

Although this product is compatible with all browsers, the Languagenut team recommend using Google Chrome. As well as logging in online or via the iPad app, students can complete their homework by downloading our iPhone app (from the Apple store) or Android app (for the Google Play store).

Feedback appreciated!
