Dear Parents / Carers

Maths Workshop for all Parents

I hope that you and your child have had a healthy and happy start to the new academic year. If you were able to attend the Reading workshops, then you will be aware of our commitment to host a range of events this year in order to explain how we teach the core subjects in school. We hope that this will also support learning at home and place you, as parents, front and centre with our teaching and learning initiatives.

We are very pleased to confirm that we have scheduled a Maths workshop on **Monday 03 October at 2pm – 3pm**. Mrs Nock and Mrs Hunt will be hosting the event and there will be plenty of opportunities to ask questions, to view the progression in Maths skills across the school and to experiment with the equipment the children use in order to support and evidence their learning. The objectives of the workshop are to;

- Review the National picture for Maths
- Present the School Vision for Maths
- Explore what it is to be a good mathematician
- Look at skills progression and expectations across school
- Explore what a typical lesson looks like in EYFS, KS1 and in KS2
- Have the opportunity to try out the manipulatives used in class

We would be delighted if you were able to join us for this invaluable opportunity to discuss, review and ask questions about our practice and approach to Maths. I would be grateful if you could complete the form as below so that we know our audience numbers and can plan accordingly.

Kind regards

Mrs Bone

Deputy Headteacher
