

27th January 2023 - No. 442

A message from Mrs Bone, Deputy Headteacher

It has been another busy week in school and the children have been working incredibly hard in all aspects of the curriculum. We were treated to 3S class assembly on Thursday. It is incredibly nerve racking to stand up in front of a large audience and they did a fantastic job in sharing their learning and adventures in class. They shared with us their PE prowess, love of reading and fabulous poems amongst many other pieces of learning. Thank you if you were able to join us to celebrate with the children. We are unable to host these events without your support so we are very grateful to you; I am sure you may have your child's lines still in your head!

I have been fortunate to see many Maths lessons this week during my "pop ins" to classes; Year 3 have been working hard on written operations for division, Year 2 have been finding ways to make numbers by using the part – part – whole model and Year 5 have been practicing long multiplication. Part of a being a mathematician is being able to explain what process you are using and why you are correct; I am always so impressed with the confidence of the children when I chat to them about what they are doing and why. It is a pleasure.

At the time of writing last week's newsletter, a group of children were making their way to the 02 for the Young Voices concert. This is a fantastic event and this year was no exception. The children were a credit to the school and loved every minute of their time although I think they were very tired by the end. I would like to thank all the adults who supervised the children and to Mrs Riseley for her very hard work with the children in weekly choir sessions, preparing for the event and organising it. No mean feat! Thank you also to those parents who were able to join the children at the 02 and for your very kind words after the event.

Next week we leave January behind which is always a moment of joy! I am hoping to join Year 5 on Thursday for their swimming lessons and to be able to share other learning in school, including outdoor learning in next week's newsletter. I hope you have a wonderful weekend and have some invaluable family time.

School News

Lost property - since the beginning of January we have been inundated with unnamed hats, gloves, scarves, coats, jumpers and cardigans as well as many unnamed non-school clothing items. All items of clothing that come into school MUST be named so that we can return items to your child. If your child has lost anything please come and look in the lost property box in the office ASAP. Any items left by half term will be donated to charity.

Please could we remind you that for the safety of all people using the main entrance, that children should not be left unattended in the school foyer before 07:45. The doors open for Breakfast Club at 07:45 where children are welcomed by Miss Ray and registered as attending the club. Please advise Miss Ray if your child has had breakfast at home. Thank you for your understanding and cooperation.

Year 2 Learning

2H worked together in a group to create their own pictures in their outdoor learning session this week as part of their Art for this term.

Year 4 Learning

4M have been role-playing a chair meeting, and the children were farmers. They came up with ideas on how to get rid of the Iron Man because he kept eating all of our crops, our machinery and our metal items. The children then drafted a plan of action to some governors on how we could work together to trap the Iron Man.

Young Voices

Everyone had a wonderful time at the O2 for Young Voices 2023. Congratulations to everyone involved and who helped out. The Choir were amazing - singing as part of 8000 children!

Nurture Group

This week the children in their outdoor session the children have been weeding and planting some seeds in the garden.

Year 3 Learning

Year 3 have been dividing two digit numbers by a one digit number, they have been using a place value grid to help them. In some of our calculations they had to exchange and find remainders.
