## Friday 17 March, Science Day; theme of 'Connections'

Dear Parents / Carers,

Friday 17 March will be a non-uniform day and we would like to invite **children to dress up as a Scientist**. This could simply be achieved by decorating a plain t-shirt with scientific vocabulary or diagrams, or make a badge to wear for the day. As well as Famous Scientists from history, we would encourage children to represent modern careers in Science as well, for example vets, engineers, or palaeontologists. Please see some examples below.

To represent **connections** around the school and in our community, the children will be creating a line of copper coins around the school. We would ask children to **bring in a handful of copper coins to** contribute to the trail, which we will be donating to The Turkey Earthquake Charity afterwards.

During the day, the children will participate in exciting Science activities which they will then showcase to another class as a celebration at the end of the day. There will also be an in-school poster competition which children will work towards in their classes and could win a prize.

All children will have the opportunity to plant something in our school ground during British Science Week as part of their Outdoor Learning session.

Across the upcoming terms, each year groups will take part in a Science STEM workshop, where they will work together in teams to solve scientific challenges.

The child loved this event last year and we are very excited to host this again this year. If you have any questions, please do chat to your class teacher and they will be very pleased to help you.

Kind regards,

Carly Ciantar

Science Leader
