Frequently Asked Questions for Parents/Carers

Why do we need a policy?

Education settings have always used photographs as a way of celebrating achievement or seeking publicity for fundraising etc. Families enjoy seeing their loved ones in print or on a website. We want to ensure that everyone can continue to enjoy these activities safely. However, parents/carers need to be aware that placing any identifying information in the public domain has risks and need to understand these issues to give properly considered consent. It is important that we all fully consider the issues before any problems can arise.

So, what are the risks?

The most highly publicised and worrying risk is that a child who appears in the paper or online may become of interest to a sex offender. Locating people through the internet has become extremely easy, using widely available software, so if there is a picture and the name of a school/setting together with the name of the child, it could be possible to find out the child's address and even work out their likely route to school. There are also other specific groups of children, staff and families whose safety could be put at risk if identified online e.g. those fleeing domestic abuse. To limit these risks, we will take appropriate steps, as outlined in the attached consent form and our image use policy, to safeguard children and our wider community.

Isn't this just scaremongering?

Sadly not. There have been cases of families receiving unwelcome phone calls or visits following appearances in the press or online. However, this is rare, so it is important to have a sense of proportion; we want to celebrate success and achievement, but parents must be aware of risks to make an informed decision.

What about school websites or other online channels?

The same concerns apply to school controlled online sites, channels and platforms, additionally it must be recognised that images of children can be copied, manipulated or changed by another person. We can try to copy protect images we share and will use lower quality images for example on our website or social media channels, but this can be bypassed.

I want to do my own recording of the school play or event is this okay?

Taking pictures or recordings of your own children for your own personal use is okay. The difficulty arises when other children are also filmed, and those images are shared online. It is important that we are all aware that some members of the community may be vulnerable and must not have their image shared online as they could be at risk. You may not always know who these people and we need everyone's support to protect our community. It's important for us all to role model positive behaviour for children, so it might be sensible to check first before posting any images online which contain children than your own. Parents/carers should not copy or share images from the school website or other channels, without appropriate permission from the school.

Letter Template - Parental Consent for Images

Date: xxxxxxxxx

Dear Parent/Carer,

This letter explains why we will need to ask for your consent before we are able to take images, including photographs and videos of your child during their time at Kingsnorth CEP.

Photographs and videos are a source of pleasure and pride. We believe that the taking and use of images can enhance the self-esteem of children and their families and therefore is something to be welcomed and appreciated.

We may take images for many reasons whilst your child is with us, including:

- documenting and recording education activities
- recording their learning and development progress
- recording and celebrating special events and achievements

We also encourage children to be active learners, and to become involved in using cameras themselves by taking photos or videos of their surroundings, activities and of each other. We do however recognise that with the increased use of technologies, particularly digitally and online, the potential for misuse has become greater and we understand that this can give rise to concern. We will therefore endeavour to put effective safeguards in place to protect children and young people by minimising risk.

We are mindful of the fact that some families may have reasons why protecting a child's identity is a matter of anxiety. If you have special circumstances either now or at any time in the future which would affect your position regarding consent, please let us know immediately in writing.

We have a specific policy regarding the use of images and the safe use of mobile and smart technology, including mobile phones and other personal devices as part of our child protection and mobile and smart technology policy, which you are welcome to view or take a copy of at any time.

To comply with the General Data Protection Regulations (GDPR) and the Data Protection Act, we need your permission before we can photograph or make any recordings of your child. If your child is old enough to express their own view, you may want to consult with them about categories of consent, and we invite you to use this letter to explore their feelings about being photographed at the setting.

Please read and complete the attached forms and do not hesitate to contact me should you have any queries.

Yours sincerely,

Mr Iain Witts
Executive Headteacher

Template Group Activity Letter and Form

Date: xxxxxxxxxxxx

Dear Parent/Carer,

We are staging a production/special event of **name** on **date**. We are sure some parents/carers would like to take photographs/videos of the production. As you know we have a policy in place with regards to the taking, making and use of images and you will have previously signed a consent form stating whether your child could be photographed or filmed.

If you wish to take photos or videos at the production, there is a strong possibility that other children will also be included. We therefore need to ensure all parents/carers who have children in the production are happy for photographs and/or videos to be taken.

We all enjoy and treasure images of our family and friends; family events, holidays and events are moments we all like to capture in photos or on video. We now have the exciting dimension of adding our images and videos to our online social networks. This means that we can easily share our photos and video with family and friends.

Whilst this can be very useful to all of us, we must ensure that we protect and safeguard all children and staff, including those who do not want to have their images stored online. Some children are at risk and **MUST NOT** have their image put online. Not all members of the community will know who they are:

- Once posted and shared online, an image or video can be copied and could stay online forever.
- Some people do not want their images shared online for personal or religious reasons.
- Some children and staff may have a complex family background, which means that sharing their image online could pose significant safeguarding risks and consequences.

In order to keep all members of the community safe we must all **think before we post** online. At Kingsnorth CEP we request that parents and carers do not take photos and video of events for personal use, any images must **not** be distributed or shared online; this is to protect all members of the community.

Please be aware that parents are **not** permitted to take photographs or to make a video recording for anything other than their own personal use for example, with a view to selling videos of an event. Should any parent/carers not agree with their child being photographed, we will consider alternative options including:

- restricting who is involved in the production/special event
- staging specific photograph opportunities

Pictures of performances are ones which parent/carers tend to treasure; we hope you will support us in this.

We would, therefore, be very grateful if you would complete the slip at the bottom of this letter and return it by **(date)**.

Yours sincerely

Mr Iain Witts

Dear Parent/Carer

We are staging a **production/special event** on **date**. This year, we will be sharing **event name** online. **List details of how this will be achieved e.g. it will be pre-recorded and shared online or live streamed, what platform will be used and any specific times.** The recording will be available for **(insert details about the timeframes for the availability of recordings after the event or remove if it will be live streamed only)**.

As you know we have a policy in place with regards to the taking, making and use of images and you have previously signed a consent form stating whether your child could be photographed or filmed. We all enjoy and treasure images of our children. Whilst the use of technology to share and access images brings fantastic benefits, we must however ensure that we protect and safeguard all children and staff. Some children are at risk and **MUST NOT** have their image shared online and not all members of our community will know who they are.

In order to keep all members of the community safe we must all think before we share online. You can support us in keeping all children safe by: **(amend as appropriate)**

- Remembering images and videos shared with you by the **school/setting** are for your own or your family's personal use only.
- Thinking about who has the right to view or listen to the recordings, not only of your own child, but of others who will have been included as well.
- Considering whether or not to share this imagery online. If you choose to do so then you must make sure this is limited to immediate family only and not made publicly available.
- **Include any setting expectations around taking screenshots, private recordings and wider sharing of the broadcast**

If content is shared or accessed outside of our requested expectations, then we may restrict or prohibit access in the future. Photographs of special events are ones which parent/carers tend to treasure; we will therefore only prohibit access as a last resort. We hope you will support us in this.

We would, be very grateful if you would complete the slip at the bottom of this letter and return it by **(date)**. If you need to discuss any of the points within this letter or have a related image use query, please don't hesitate to contact us to discuss further.

Using Images Safely and Responsibly

We all enjoy and treasure images of our family and friends; family events, holidays and events are moments we all like to capture in photos or on video. We now have the exciting dimension of sharing our images and videos to online social networks, such as Facebook, YouTube, WhatsApp and other websites. This means that we can easily share photos and video with family and friends quickly.

Whilst this can be useful, we must however ensure that we all take steps to protect and safeguard children and staff, including those who do not want to have their images stored or shared online.

What should we all think about before posting any images or video online and are there any risks?

- Once posted and shared online any image or video can be copied and will stay online forever.

- Some children and staff may have a complex family background which means that sharing their image online can have unforeseen and dangerous consequences.
