

Come and find out how we teach Maths through the mastery approach at Kingsnorth School.

Find out:

- How and why this works for all children
- What you can do as parents to support your child in Maths
- What manipulatives we use and why (you'll even get to try some out)
- How learning builds and progresses through the school.

You are welcome to attend 1 or both of the following workshops

EYFS/KS1 (years R, 1 and 2) - Parent maths workshop 2.30pm 29th September

KS2 (years 3,4,5 and 6) - Parent maths workshop 2.30pm 13th October
