Dear Parents and Carers,

I am writing to address the ongoing issue of car parking on the school site.

We are constantly striving to manage the situation effectively, responding to concerns and complaints as they arise, and seeking ways to improve the provision available.

However, we remain very limited by the physical constraints of our space and location. Ultimately, there are simply not enough parking spaces to accommodate the volume of cars, which presents a continuing challenge.

In recognition of this, we are actively working alongside the parish and borough councils to assess the current situation in detail. As part of this collaborative effort, we are conducting a survey aimed at better understanding how families and community members travel to and from the school.

Your responses will be invaluable in helping us identify opportunities to enhance safety, improve traffic flow, and promote sustainable transport options around the school environment.

We are committed to working in partnership with the local council to explore what practical improvements can be made to ensure that school travel is safer, easier, and more environmentally friendly for everyone involved.

Please be assured that all responses to the survey will remain confidential and will be used solely for planning and improvement purposes.

The survey can be accessed here –

[School Travel Survey for Parents & Community Members – Fill in form](#)

Thank you for your continued support and cooperation as we endeavour to address this complex issue.

Yours sincerely,

Iain Witts
Headteacher
